Skin Care Collection

LA FLEUR® SKIN CARE SYSTEMS, INTERNATIONAL is committed to providing the ultimate skin care collection that is superior in every way.

We use only pharmaceutical grade herbs and organic ingredients to create a quality product line with no chemicals, no additives, no synthetic vitamins and only trace amounts of preservatives necessary to stabilize the natural ingredients.

We search the world for scientific breakthroughs that enhance our already unparalleled formulations. The vibrant plant life specimens that are included in all of our products come from using only the most exotic soil and growing conditions. This attention to detail increases the potency and purity values, as well as eliminating harmful by-products.

However, what really distinguishes us from other product lines is the sophisticated process of molecule sizing which was developed exclusively for LA FLEUR® SKIN CARE SYSTEMS. This specialized process allows for maximum tissue penetration and absorption that is safe and effective for all skin types.

Experience dramatic improvement in your skin by using the highest quality products available—the LA FLEUR® RÉPARER SKIN CARE COLLECTION. You will be rewarded with vibrant youthful skin that improves with continued use.
